

PRODUCT SHEET

Carlton[®] nonmetallic strain-relief multi-bushing fitting

- Adaptable to a variety of cables and applications
- Compatible with NMWU cables
- Extra-strength grip around every bushing

Innovative design

For faster, more reliable installations

Carlton® indoor/outdoor nonmetallic strain-relief fittings are uniquely designed for high-performance reliability. Adaptable to a variety of cables and applications, Carlton® fittings make installations easier, faster and more secure... every time!

Carlton® nonmetallic strain-relief fittings are highly adaptable and can be used indoors and outdoors in residential and commercial applications including lighting arrays, pool installations, AC / heat pump units, exterior outlets and cable installations, and any other electrical cable installation that requires a reliably tight grip and seal.

Flexible elastomer bushings for a snug and secure fit on a variety of cable shapes and sizes.

Compatible with NMWU cables.

Unique overlapping compression fingers for an extra-strength grip around every bushing.

Multiple trapezoidal nut threads for easy turning and added strength.

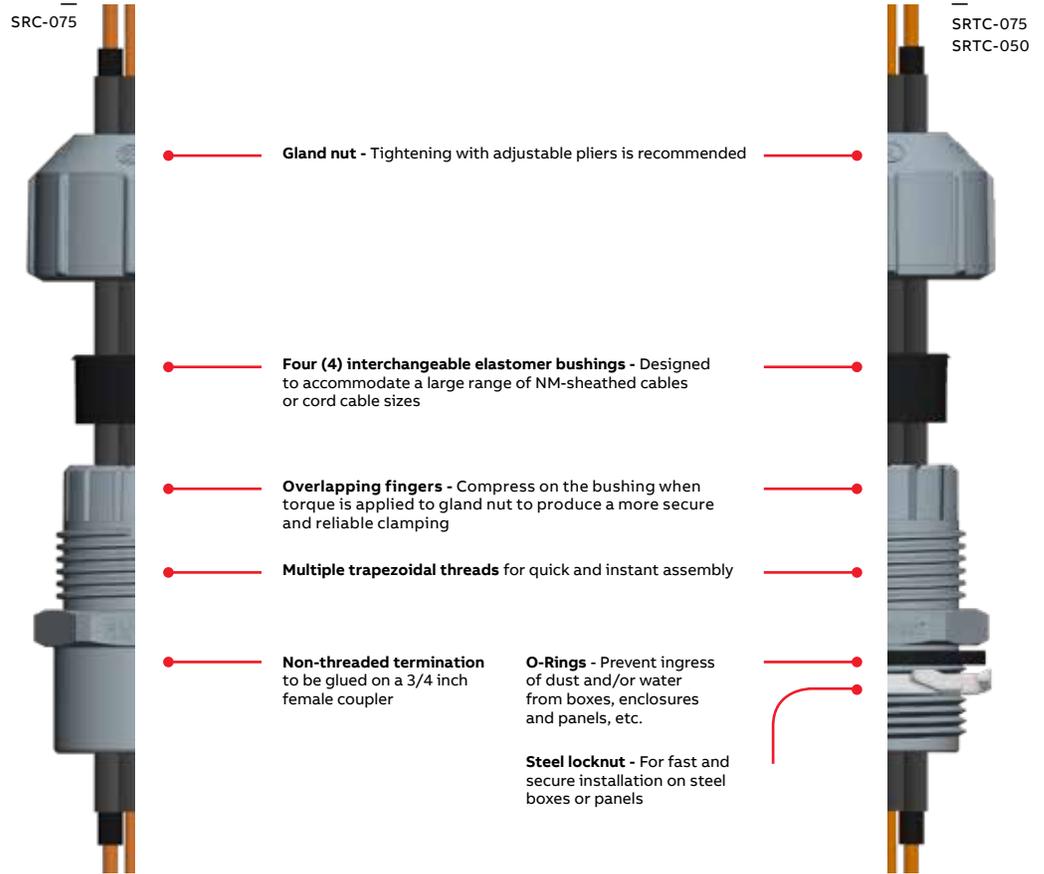

Hand/plier-friendly gland nut for optimal ease-of-use.

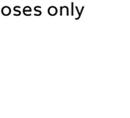

Highest-temperature rating*
Up to 85 °C (185 °F).
