Cable tray combo clamp

T&B Cable Tray

T&B Cable Tray combo clamp

New design with dual functions

Stock one design for all hold-down and expansion needs. The innovative new combination hold-down/expansion-guide clamp from Thomas & Betts can be used on all series of T&B Cable Tray, regardless of side rail thickness.

In addition to the dual hold-down and expansion functions, the clamp offers increased pull resistance for vertical applications. The anti-rotation design holds the clamp in place when tightening. The clamp ends are labeled “CLAMP” and “GUIDE” for easy identification.

Features

- Easy-to-install design
- Compatible with all series of T&B Cable Tray
- Available in aluminum, pre-galvanized steel, hot-dipped galvanized steel and stainless steel 316
- Versatile use for strut and beam installations
- Functional in all cable tray positions including vertical installations

T&B® Cable Tray combo clamps
