

QuikLok® Tray Profile

Since its introduction, the ExpressTray® system has been successfully installed in a range of commercial and industrial environments across Canada. With every new project comes new challenges and valuable input from end-users and facility managers. The products in this section are a result of this experience.

Two major time saving solutions can be found in this section.

Insert.

Push down.

Locked!

QuikLok® Tray – Connections at Record Speed

In any project, installation time is key. Our patented QuikLok® tray profile connects straight lengths of tray at record speed. The name says it all!

No connection components or tools required.

Lengths of tray lock together in a matter of seconds with no connection components or tools and with no loss of stability or load-bearing capacity. Load tests show that QuikLok® is absolutely equal to systems with traditional bolted hardware.

For complete ordering information, see pp. B4-B7.
