

## Red Dot Weatherproof metallic covers

### Universal flip-lid weatherproof covers

CCU

#### Universal design installs in both horizontal and vertical applications

Red Dot universal flip-lid weatherproof covers save you time and money by reducing the number of items you have to inventory to complete a job. Capable of mounting either vertically or horizontally, the covers provide added versatility with innovative adapter plates to support all of the most common installation configurations – 10 with the single-gang cover and 25 with the 2-gang cover. Choose from grey, bronze or white covers.

#### Features:

- Included adapter plates offer 10 installation options with single-gang cover and 25 installation options with 2-gang cover
- Keyhole openings on back enable easy installation on an existing outlet
- Durable, die-cast zinc-alloy construction
- Suitable for use in wet locations with cover closed
- Available in grey, bronze and white
- Lockable for security when not in use
- Easy access to outlet with 130° opening
- Preconfigured for GFCI – the industry’s most common outdoor application

#### Accommodates multiple outlet configurations (receptacles not included)
