Non-watertight fittings

Two-screw fittings

These two-screw fittings have a wide array of industrial applications in dry locations. These fittings are designed to accommodate a wide range of cables and provide a means to terminate at junction boxes, control centres, panel boards and enclosures for motor control and electrical distribution equipment.

Materials

Two-screw fittings are made of sand-cast, copperfree aluminum (0.4% or less), for single- or multiconductor cables.

Sizes

Standard trade sizes from $\frac{1}{2}$ to 2 inches are available for use with cables that have outside jacket diameters of 0.18 to 3.15 inches.

Design

Two-screw fittings are specifically designed to accept a large range of armour cable with or without PVC external jacket with the proper throat acting as an armour stop.

Certifications

These aluminum non-watertight fittings are CSA certified for ordinary locations for armoured cables with or without PVC jacket for DRY LOCATION only, including:

- Teck cables
- Aluminum sheathed (corrugated) and Type RA cables
- Communication or instrumentation cables

The XC-280, CI2120 and CI2124 are CSA certified for ORDINARY LOCATIONS only, for use with armoured cables only.
